Re: WT Docket 94-102
TTY Quarterly Report 2003
N.E. Colorado Cellular, Inc.

Dear Ms. Dortch:

On behalf of N.E. Colorado Cellular, Inc. ("NECC") this letter is submitted to report the status of the company's implementation of the capability to transmit 911 calls from text telephone ("TTY") devices.

In July 2003 NECC purchased Wireless II, L.L.C. d/b/a Nebraska Wireless Telephone Company ("Nebraska Wireless") and its related FCC authorizations. At the time of purchase Nebraska Wireless had on file with the FCC a Petition For Waiver And Extension of Digital Wireless 911 TTY Requirements which requested an extension of time to comply through December 31, 2004.

Since the time of NECC's purchase of Nebraska Wireless, NECC has been in the process of replacing the CDMA operating technology used by Nebraska Wireless to GSM. NECC has already started setting down GSM cell sites and has begun making the cut over to GSM technology. With this process comes significant equipment replacement and testing which has to be done in order for this process to be complete.

Once the cut over is complete NECC will be utilizing Nokia GSM handsets which will be E911/TTY compliant. NECC anticipates that this process will be complete and NECC will be E911/TTY compliant by July 1, 2004.
